

GET IDENTITY

**THE SMART PLATFORM FOR
CARD ISSUANCE**

GET Identity is a comprehensive card personalization software designed to provide organizations with the ability to create, manage, personalize and issue a wide range of card types. The system's open architecture supports a wide range of features that can be easily grouped and utilized by small and large organizations, and its multi-tier nature allows it to work with different database engines.

www.getgroup.com

- ▶ An intelligent card issuance solution with customized workflows, and works independently of hardware platforms.
- ▶ User-friendly and versatile with rich design tools, a library of templates and drag-and-drop functionality.
- ▶ Reduces the cost and complexity of contact, contactless and magnetic stripe card encoding and barcode/QR code generation.

Components

ID Designer

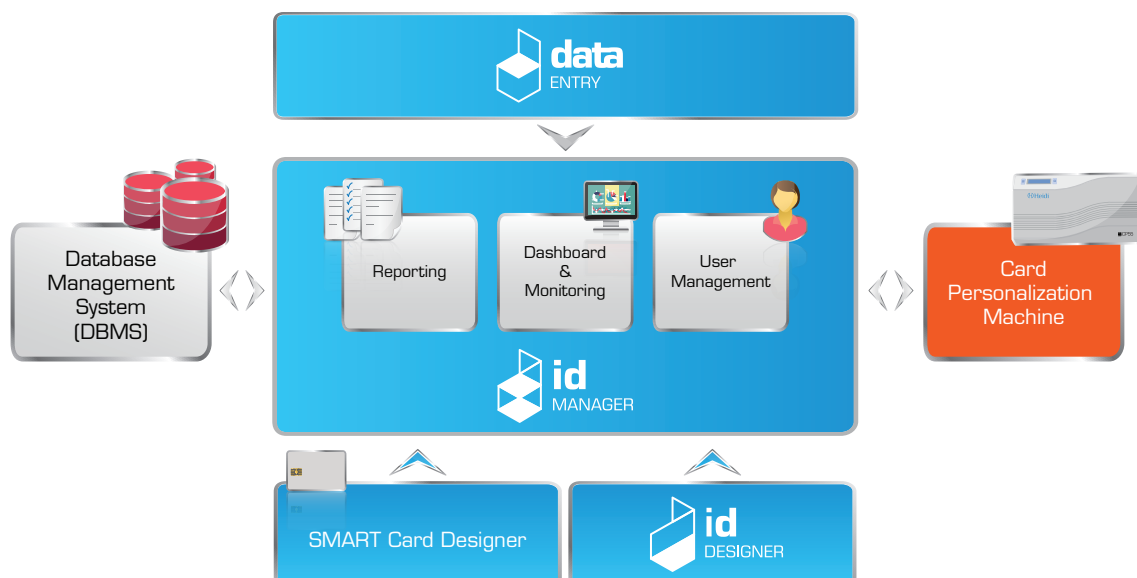

The ID Designer is a feature-rich tool for the design of the graphical and logical structure of the card. It supports various static and dynamic elements including text, images, shapes, layers, and complex items. Additionally, the ID Designer module incorporates a smartcard unit responsible for designing the encoded structure of smart cards.

ID Manager

The ID Manager module provides the administrator with a user-friendly interface to set the data source, design and customize the data-entry interface, create roles and users, assign relevant permissions, and generate reports.

Data Entry

The Data Entry module supports direct issuance operations with a dynamic data-entry screen, instant print preview, and various tools to add and edit records. The data on the cards is imported from the data source defined by the ID Manager.

Software Specifications

Feature List	Heidi	Basic	Advanced	Enterprise
Dual Side Template Design	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
System Predefined Templates	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Multiple Views/Pages/Layers	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Static/Variable Data Field (Text, Image, Date, MRZ, Graphic fields)	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Composite Data Field	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Add, Save and Search Data Records	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Barcode, Magnetic Strip and QR Code Support	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Create/Customize own Template Design	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Automatic Database Creation and Configuration (Access)	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Customize Data Entry Form Design	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Instant Printing Preview	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Variable Data Field Import/Export (Excel, CSV, comma-delimited Text)	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Local MS Access Data Base	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Dashboard	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Multi-Table databases (MSSQL, MySQL)			<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Reporting (Standard/Customized)			<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Integrated Signature Capture ²		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Centralized User Management			<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Export Report to Excel			<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Image Processing and Enhancement			<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Smart Card Encoding (Mifare Classic, Mifare DESfire, Gemalto MPCPOS)			<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Integrated Fingerprint Capture ²				<input checked="" type="checkbox"/>
Integrated Face Capture ²				<input checked="" type="checkbox"/>
Oracle Database Support				<input checked="" type="checkbox"/>
Microsoft Active Directory/LDAP Support				<input checked="" type="checkbox"/>
External HRMS integration Support ³				<input checked="" type="checkbox"/>

Operating system: Microsoft windows 7/ Windows 8.1/ Windows 10 (32-bit or 64-bit)

^{*1} MRZ not supported in Heidi version

^{*2} Development and integration services required to support new devices that are not listed

^{*3} (Optional) standard link to HRMS will be provided, development required to support new functionalities

GET Identity empowers its users with the following benefits:

- ▶ A high-performance solution supporting concurrent transactions.
- ▶ Easy-to-use modules, screens and tools.
- ▶ Easy data management through customized data entry screens.
- ▶ Supports GET Group's card printers, and can seamlessly integrate with other printers.
- ▶ The solution includes standard reporting templates, a dashboard, and tools for report customization and monitoring.
